REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards a method and system of processing a data set. Each independent claim identifies the uniquely distinct feature " wherein for selected categories of the predetermined set, coding the data signals for that category using a codebook for that category, wherein the data signals are coded so that a predetermined binary data signal budget is not exceeded and the categories have a rank order". The closest prior art, Virtamo et al. (US 5,692,012) disclose wherein a sub-block, is further divided into quadrant sub-blocks, and these further into smaller and smaller sub-blocks by following the same principle, so that each quadrant and sub-block is coded with a classified codebook, where the classifiers are the vector indices of all the parent blocks of the said quadrant or sub-block whereto the quadrant or sub-block to be coded belongs, as well as the quadrant labels of the concerned quadrant or sub-block and the said parent blocks, and where the classified codebooks are designed beforehand in the above described fashion, while Voois et al. (US 6,124,882) disclose video communicating apparatus and method and Feo et al. (US 5,717,787) disclose method for data compression by associating complex numbers with files of data values, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
